

## BBraun “Sharing Expertise” Award

*Cecilia St. George-Hyslop and Bill McQuarrie,  
Senior Infusion System Specialist, BBraun Medical*

**Cecilia St. George-Hyslop, Newcastle, ON**  
*Nominated by: Lori Liske*

“Critical Care Nursing has a global, national and local leader with Cecilia Hyslop. For over 20 years I have had the opportunity to nurse pediatric critically ill children with Cecilia and to reap the benefits of her knowledge, skill and judgment. Her 10+ years with CACCN has seen Cecilia as the National President, multiple conference presentations and organizer of many events. Cecilia is an exemplar of past, present, and future voice of critical care nursing. Her efforts have provided a national stage for the dissemination of research and nursing practice... Cecilia is truly dedicated to facilitating, directing and advancing the body and voice of nursing... Cecilia can also be found providing advice and assisting other colleagues with their day to day communications and or mis-communications. Through the use of a model of communication called “Crucial Confrontations” Cecilia coaches and mentors you to achieve a constructive conversation. A conversation you might not have had in the first place. On many levels, Cecilia is well respected.”

~~ Lori Liske

“Cecilia has strong expert clinical and educational skills. She has substantial knowledge as an educator in the Pediatric Critical Care setting. She works tirelessly planning and preparing for the educational needs of new staff, as well as seasoned people. Globally she has gone to China, Middle East and our Far North to assist nurses in their quest to give the best patient care possible. Health care providers from all disciplines continually seek her advice. Cecilia has a revolving door of compassion and understanding. You are always welcome.”

~~ Nancy Breen, Staff Nurse, Cardiac Critical Care Unit

“Cecilia is a role model and mentor and I believe an ambassador of the Advanced Nursing Practice Educator role given her high level skills, her productivity and her academic approach. She is an excellent candidate for this award.”

~~ Bonnie Fleming-Carroll, Associate Chief of Nursing & Interprofessional Education
