

PDSA Cycles

Project Name: _____ Cycle #: _____

Objective of this Cycle: _____

PLAN	What change are we testing? What is our prediction and theory? Details of the plan (who, what, where, when and how).
DO	Carry out the plan. Record data and observations.
STUDY	Complete analysis and synthesis. Do the results agree with the predictions? Under what conditions could the results be different? Summarize new knowledge.
ACT	What action are we going to take as a result of this cycle (Adopt, Adapt or Abandon)? Are we ready to implement? What other processes or systems might be affected by this change?
	Objective of Next Cycle
